ABOUT ME

- I am a driven Information Technology student at Nelson Mandela University, specializing in Software Development as I near the completion of my studies in 2024. With a robust foundation in programming and web development, I have honed my skills in JavaScript, SQL, HTML, and CSS.
- I am currently seeking a Software Developer position where I can utilize my strong problem-solving abilities and deep understanding of data structures.
- Proficient in languages such as C# and experienced in Windows desktop application development, MVC, Dapper, and Entity Framework, I bring a diverse skill set to the table. Additionally, my experience includes data analysis, advanced design, and project planning within Agile development methodologies.
- As a quick learner who adapts to both established and emerging technologies, I am excited to join a dynamic and innovative team that values collaboration, enabling me to tackle challenging projects while further developing my software development skills.

WORK EXPERIENCE

Bartender, Beershack Bar Cafe, Port Elizabeth, Port Elizabeth

Nov 2022 - Sep 2023

- Delivered outstanding customer service in a high-energy bar and café setting, driving customer satisfaction and loyalty.
- Crafted and served a diverse selection of beverages, upholding premium quality and presentation standards.
- Engaged with guests to take precise orders and ensured prompt service for an exceptional experience.
- Managed cash transactions with precision, ensuring accuracy and efficiency.
- Collaborated effectively with team members to optimize operations and foster a positive work atmosphere.
- Managed cash transactions with precision, ensuring error-free financial operations.
